Dear Friends of the First Ammendment:

It appears that the "Old Boys" are out for blood. (Enclosed is a sample of a "secret mailing.) The cult around the Association of Former Intelligence Officers (AFIO), Ray Cline's gang at Georgetown, and the Buckleys at the American-Chilean Council (ACC) have in mind some McCarthy-type hearings.

I trust that we agree that this is not the 1950s, or the day of the Plumber and the secret "Enemies' List." I believe that what is revealed here is not the power but the weakness of the secret class.

Yours in the Right to Know,

Donald Freed

P.S. John Blake, president of AFIO will be general counsel for the Goldwater Intelligence Sub-Committee!
